Campeon GmbH & Co.KG  
Cost: appr. 140.000 Euro  
Area: appr. 5.400 m<sup>2</sup>  
Service Phases: Lph 1-8

As part of the development of the new „Campeon“ company's location, a day-care center was set up for Infineon Technologies. It is embedded in the 20-hectare community park, the outdoor play area is fenced off with a willow wooden fence, which is reinforced with a wire mesh for safety reasons. Inside the fenced zone, there is a separate microcosm consisting of an open play area for romping around and a large number of retreat areas for quiet play. A spacious sand area with a climbing frame, and mud pump, framed by a curved play deck and a corrugated tartan track, leaves plenty of space for creative play. A willow jungle invites you to hide and seek.
