Service Phases: Lph 1 - 8  
Duration: 1997 - 2002  
In collaboration with:  
brandi & partner,  
Göttingen

The new office complex for the Federal Bank in Halle is the starting for a new garden-city-style development.

Core element of the new park is the lake. It works both as a natural separation between the office complex and the employees' residentials and as a storm-water storage and filtration system. The materials used for the park reflect both the character of the surrounding 19th century urbanisation and the modernism of the architecture.

The new office complex for the Federal Bank in Halle is the starting for a new garden-city-style development.
