

Bürgerpark Infineon Campeon München

Munich
Completion 2018

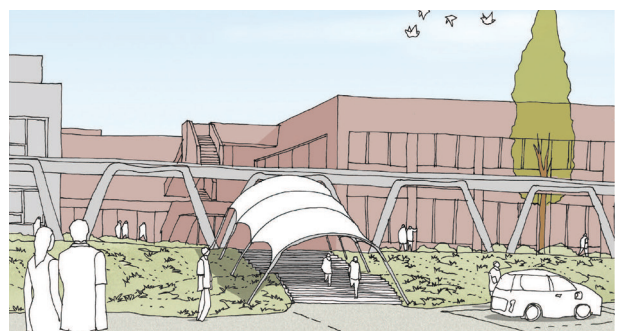

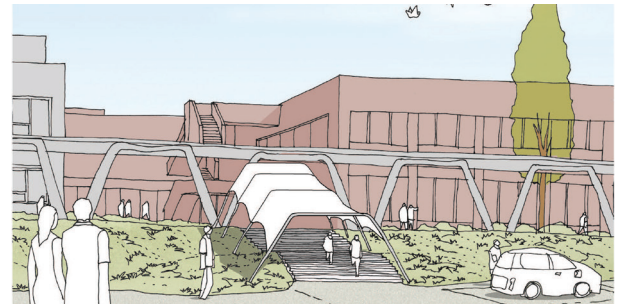

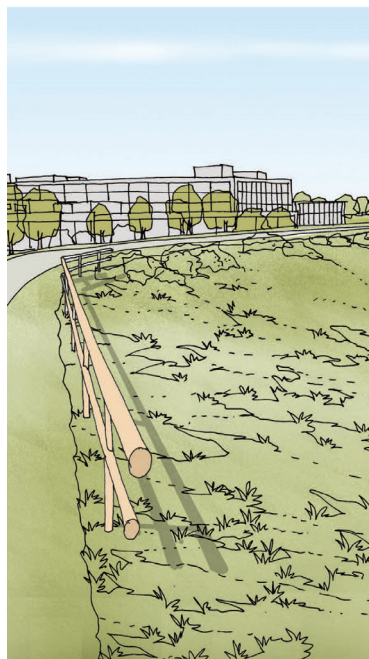

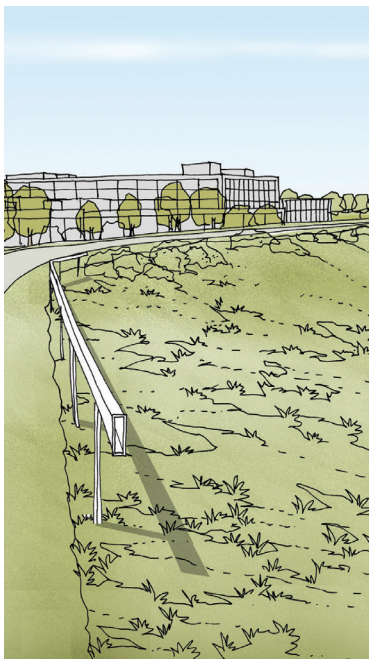

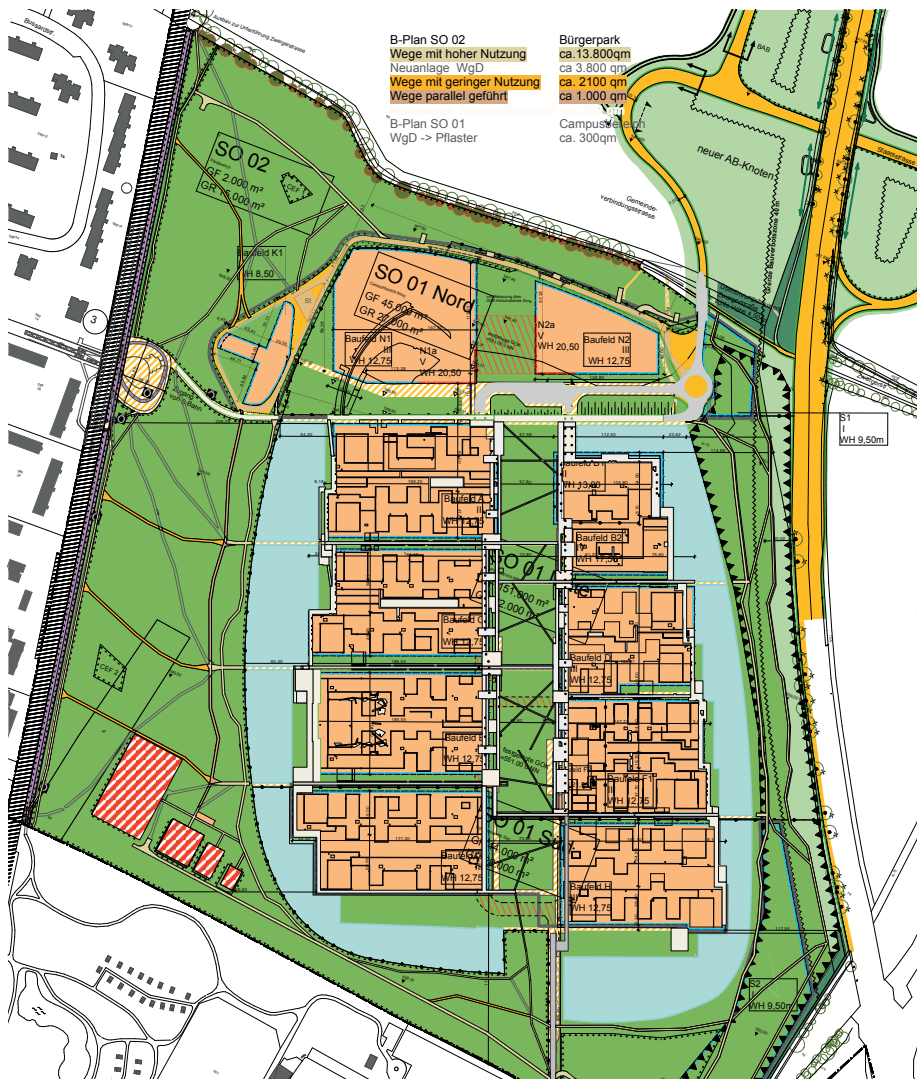

Client: Infineon Technologies Ver-
bögensverwaltungsgesellschaft mbH
Area: appr. 0.60 ha
Cost: appr. 850.000 Euro
Service Phases: Lph 2-8
Duration: 2014 - 2018
In collaboration with:
Maier Neuberger Architekten

The Bürgerpark in Munich, part of the Neubiberg district, is a private park belonging to Infineon Technologies AG, which is freely accessible to visitors and residents of the city of Munich.

Approximately nine years after the plan for Campeon Infineon in Munich was complete, it was adapted to comply with an amended development plan.

The principal changes involved remodelling the Bürgerpark and its network of paths to meet the new conditions. This involved redesigning several park areas, including common ground, the football pitch and the parking area. Connecting paths in the Bürgerpark had already shifted to some extent, and a network of lines of desire had developed, so these routes were incorporated into the new path system.

Great importance was attached to the planting and to minimising the amount of sealed surfaces in the Bürgerpark.
